EDUCATION

System development .NET

Campus Varberg

2023 - 2025

Additional Coursework in IT

- Introduction to Python
- Cybersecurity

Pedagogical degree, y. 4-6

Uppsala University

2016 - 2020

PROJECTS

NanyriaNest

Library Management System

ASP.NET Core, Angular, SQL Server,
JWT Authentication

Developed a full-stack library management system using .NET 8 and Angular, implementing JWT authentication, REST APIs, role-based authorization, and Entity Framework Core.

LANGUAGES

Swedish	Native
English	Fluent

EXPERIENCE

Backend Developer (.NET / Payments)

Convene Mobility

2026 - Present

Part of a backend team modernizing a legacy payment platform and implementing a new PSP integration (Viva Payments) using a modular, provider-based architecture aligned with clean architecture principles.

- Developed PSP integrations in C#/.NET, including OAuth2 authentication and secure token lifecycle management.
- Refactored tightly coupled payment flows into decoupled provider abstractions supporting multiple PSPs, including Viva and Windcave.
- Built integration, flow, and validation tests using xUnit, fake handlers, smoke tests, and Postman.
- Applied clean architecture and SOLID principles to improve maintainability, extensibility, and separation of concerns.

Software Developer Intern

Aire Energy

2024 - 2025

- Developed backend functionality in C# and frontend features in Angular.
- Gained hands-on experience with full-stack development and collaborative project workflows.

Educator – Multiple Schools

2020 - 2023

- Planned and delivered structured learning experiences for students in grades 4–6 across multiple subjects.
- Developed strong communication, adaptability, and problem-solving skills through work with diverse student needs.

TECH STACK

BACKEND

C#, .NET, ASP.NET Core, REST APIs

FRONTEND

Angular, TypeScript, HTML, CSS

AUTHENTICATION & SECURITY

OAuth2, JWT Authentication

ARCHITECTURE

Clean Architecture, SOLID Principles, Dependency Injection

TESTING & TOOLS

xUnit, Postman, Git, SQL Server, Entity Framework Core
